
Overview

Providence Alaska Medical Center (PAMC) Laboratory wishes to thank you for selecting us as your laboratory testing provider. We are a hospital-based laboratory providing quality laboratory testing and services to health care providers in Alaska. As part of the Providence Health System, we are committed to partnership with others to promote the health and wellness of Alaskan communities. We work with independent medical facilities, physician practices, and the State of Alaska to provide inpatient and outpatient diagnostic testing throughout our state.

PAMC Laboratory looks forward to the opportunity to help provide the best care possible for your patients.

Sincerely,
Megan Davies, DO.
Department Chairman
Laboratory Medical Director
