

COURIER SERVICES

OhioHealth Laboratory Services provide prompt courier service to meet the needs of your practice. Specimen pickup times will be arranged to coordinate with your office hours and test result requirements.

The couriers have been trained to provide professional and courteous service.

Couriers carry dry ice and refrigerated specimen containers so there is no need for your staff to pre-package frozen specimens for transportation.

Call OhioHealth Client Services at 614-566-1LAB (1522) or toll free at 844-326-1LAB (1522) for all your courier needs.
