Joint Commission on Accreditation of Healthcare Organizations (JCAHO)
College of American Pathologists (CAP), Lab Number: 11835-01

Quality Assurance

We believe that the first assurance of quality is a qualified staff. Our laboratory is fully staffed with board certified medical technologists and medical laboratory technicians, along with a highly skilled support staff of clerks and phlebotomists. The laboratory is directed by a board certified pathologist and supervised by a team of experienced technologists.

Our extensive quality control program includes proficiency testing of samples from the College of American Pathologists.
