

# Copley Hospital, Inc. Laboratory Services Directory

## BILLING

Copley Hospital can bill:  
Your Office  
Medicare  
Medicaid  
Many commercial insurances  
Your patient

Current legislation requires hospital laboratories to bill Medicare and Medicaid DIRECTLY for clinical laboratory tests performed for physicians, clinics and skilled nursing facilities.

The Pathologist will submit separate bills for pathologist interpretation of certain tests (e.g. Cytology, Surgical Pathology). This is a FEDERAL regulation. These tests are noted on the fee schedule with a "Part B" component. All accounts need to complete the billing information section of the requisition.
