

Massive Transfusion Protocol Tip Sheet Care Team Runners

1. Take a patient demographic sticker or other form of patient ID (anything with name & MRN)

- Patient name and MRN is required to pick up MTP cooler

2. Take the MTP Card from your unit for emergency elevator access

- Double tap MTP card to recall the elevator
- Return the card to your unit after each use
- Card use is monitored by Public Safety and Blood Bank Quality Assurance

3. Go to the Blood Bank, CCD East room 2-730 and ring the doorbell (red circle)

- Follow way-finding signs to Blood Bank or use map from Emergency Transfusion Guide on crash cart

4. Transport the cooler directly to the care team

5. Keep the MTP cooler at the patient's bedside until the MTP is deactivated

- Cooler expiration time and patient ID will be on the front of the cooler (blue circle)
- Cooler expires four hours from when it is packed
- Keep cooler closed except to retrieve & give products
- **DO NOT** place platelets or cryoprecipitate inside cooler
- Store platelets and cryoprecipitate in the pack attached to cooler (red arrow)

6. Care team must return the cooler(s) to the Blood Bank if...

- MTP is deactivated
- Cooler is within 15 minutes of expiration
- Cooler is empty and will be swapped for a new MTP pack
