360 Broadway

Bangor, Me 04401

REFLEX TESTING

PURPOSE: To define what reflex testing is and how/when it is used by the St. Joseph Hospital Clinical Laboratory.

1.0 PROCEDURE:

- 1.1** Reflex testing is defined as a testing algorithm, where an initial test is performed and based on this result, further testing is performed on the sample.
- 1.2** The Reflex Testing Algorithm is developed and approved by the Medical Director or the reference laboratory.
- 1.3** All reflex testing is approved by the Medical Staff.
