Pathology reports in MyWVUChart

Recently several sensitive pathology reports released to patients' MyWVUChart without the required delay. Although the scope of the problem appears to be limited, effective 11/15/17 all pathology reports no longer automatically release to MyWVUChart. They require manual release by the provider to MyWVUChart if or when deemed appropriate for viewing. This limitation will be in place indefinitely to allow MyWVUChart analysts to evaluate and remedy the situation. Thank you for your understanding.
