**UNIVERSITY HEALTHCARE**  
**LAB ALERT**

*RL* Ryan H. Livengood, M.D., Medical Director  
Department of Pathology and Laboratory Services

**Test Name: TSH**

Both Berkeley Medical Center and Jefferson Medical Center laboratories will be switching to the new TSH (3<sup>rd</sup> IS) assay on 04/26/2017.

This new 3<sup>rd</sup> International Standard TSH assay was developed to reduce interferences and to deliver robust lot-to-lot performance for reproducible results. The current standards of care necessitate that laboratories use third-generation TSH assays as this level of sensitivity is necessary for detecting differing degrees of TSH suppression.

**New Reference Range: 0.340-5.330 uIU/mL**
