

Sanford Laboratories offers Direct Test Laboratory Testing, giving you the freedom to order several lab tests quickly, conveniently and confidentially without visiting the doctor. All the testing is done in our accredited laboratory and performed by the professional staff of Sanford Laboratories.

Direct Test was developed to help you monitor certain ongoing health risks or to assess the potential for health risks. The tests are a helpful tool but should not be used as a substitute to visiting your doctor on a regular basis.

Sanford Laboratories Locations:
