COMPLIANCE

Compliance Policies

Asante Health System is committed to compliance with applicable laws and regulations such as the Clinical Laboratory Improvement Amendments (CLIA). Regulatory agencies that oversee our compliance include, but are not limited to, the Centers for Medicare and Medicaid Services (CMS), the Food and Drug Administration (FDA), and the Department of Transportation (DOT). Asante develops, implements, and maintains policies, processes, and procedures throughout our organization which are designed to meet relevant requirements. In addition, Asante has a robust internal and external audit and assessment program to monitor ongoing compliance. It is our expectation that clients utilizing our services will ensure their compliance with patient confidentiality, diagnosis coding, anti-kick back statutes, professional courtesy, CPT-4 coding, and other similar regulatory requirements.

HIPAA Compliance

Asante Health system is fully committed to compliance with all privacy, security, and electronic transaction code requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Although we cannot assure that individual clients will meet their own responsibilities under HIPAA, we are committed to sharing information and coordinating efforts toward that goal.

Proficiency Testing

We are a College of American Pathologists (CAP)-accredited, CLIA-licensed facility that voluntarily participates in interlaboratory proficiency testing programs.
