

**Rogue Regional Medical Center (RRMC)**  
**Three Rivers Medical Center (TRMC)**

**CONSULTATION**

Clinical laboratories play a key role in the diagnosis and management of disease. The staff are dedicated to meeting these needs and support is available 24 hours a day, 7 days a week to respond to client inquiries and concerns.

Pathologist participation in management provides focus and direction to our team of certified technologists, technicians, laboratory assistants, phlebotomists, office staff, and couriers. Each laboratory department is under the supervision of an on-site pathologist who oversees the quality of work performed and is immediately available to consult with both technologists and clients.

Call:

- RRMC at 541-789-4191 (Monday – Friday) or 541-789-4164 (after hours and weekends)
- TRMC at 541-472-7191 (Monday – Friday) or 541-472-7170 (after hours and weekends)

Pathologists who are specialists in the fields of Hematology, Chemistry, Microbiology, Blood Bank and Cytology serve as key consultants to clients. This group of technical specialists welcomes questions regarding test methodologies, appropriate ordering of tests, and the interpretation of results. Skilled and experienced staff technologists are also available for consultation.
