Check tests desired. Type or clearly print all information, always including the patient’s age and sex.

Transmission of Results
- Called Reports:
  Results will be called to the practitioner upon request. This request must be communicated at the time of order by indicating ‘Call Results’ on the test requisition form. Results will be called upon completion of all tests unless otherwise indicated. Results will not be released to the patient unless a request to do so is received from the practitioner, or a “Release of Medical Record” form is signed by patient.
- Faxed Reports:
  Reports will be auto-faxed to those practitioners participating in this auto reporting service, final reports are auto-faxed upon verification of test results. If a clinician chooses not to use the auto-fax function results will be mailed or delivered via courier. Request to fax results may be submitted in writing on the laboratory requisition or may be requested by phone.
  — Contact the Customer Service Center (CSC) at 303-440-2072 to have Auto-fax set up for your reports.

- Mailed Reports:
  Reports that are not automatically faxed to the physician following completion of the test(s), may be mailed or delivered via courier. Mailed reports include the following information: patient account number, laboratory control number, test name, and result and reference ranges. Requests for mailing or faxing reports to practitioners other than the ordering practitioner will be honored only upon written or phoned notification.
