
Mission Statement

Ridgeview Medical Center exists to enhance the health of people in the communities it serves by:

- Collaborating with physicians to provide an array of quality medical services that foster the well-being of individuals, families, and communities
- Supporting and developing the capacity of the community to enhance the health of its citizens
- Providing information resources that further people's well-being
- Continually and systematically improving the quality of its work
- Developing effective working relationships with other organizations oriented to the health of the community
- Advocating for the health of its community, and enabling and encouraging the abilities of its staff
- Efficiently using resources which are entrusted to us

Throughout, Ridgeview Medical Center regards its community, those who seek its services, the organizations with which it partners, and its staff with compassion, dignity, and fairness.
