

# *Accreditation, Licensure, and/or Registration*

## **Introduction**

The Department of Laboratories, Barnes-Jewish Hospital, provides routine, emergency, and esoteric testing for patients in the communities we serve. Services are available 7 days a week, 24 hours a day, 365 days a year. The laboratories are staffed with clinical laboratory scientists and medical technologists who are nationally certified, as well as laboratory technicians and clerical support personnel. Medical direction for the laboratory is provided by faculty members of the Division of Laboratory and Genomic Medicine and Division of Anatomic and Molecular Pathology at Washington University School of Medicine. Residents and medical directors are available 24 hours a day for consultation.
